

Dealership Cybersecurity

Stop Cyberattacks in Their Tracks

CDK Cybersecurity Solutions provide a three-tiered cybersecurity strategy to prevent, protect and respond to cyberattacks so you can defend your dealership.

Request a Demo

Protect Your Most Valuable Assets

The key to maximizing security is having the right mix of technology, people, and services.

Provide Peace of Mind

Secure your data to protect your customers against identity theft and keep them coming back to your dealership.

Stay Up and Running

Safeguard your dealership against cyberattacks to keep your computers from slowing down or stopping altogether.

Engage Customers

Provide robust cybersecurity so you can stay focused on customers and selling cars.

Cybersecurity Is a Business Priority

89%

of dealers say cybersecurity is more important than it was a year ago — up 12% from 2021.

47%

of dealers say they are well-prepared to be compliant with the FTC Safeguards

Explore Our Cybersecurity Solutions

CDK Network Protect

Maintain consumer trust and protect your dealership's reputation by preventing a breach in security with around-the-clock protection, proactive alerts, remote remediation and regulatory compliance controls.

CDK Endpoint Protect

Guard against ransomware and unsecured devices on your network with next-generation endpoint device monitoring and protection.

CDK Security Awareness Training

To stop attacks before they start, our cybersecurity experts will teach your employees how to spot and prevent phishing attacks and maximize security with a layered security approach.

CDK MailProtect

Protect your employees and business with this intuitive administrative portal that protects your business and employees from spam, malware and viruses.

CDK Multifactor Authentication

Keep cybercriminals out of your business systems and data by using CDK Multifactor Authentication, which requires users to establish a second level of identity verification.
